

GREAT NORTHERN SALMON

Our location by
Katahdin National Monument, Maine

INDUSTRY PRIORITIES

- Achieve capex budget
 - \$30 to \$35/ kg depending on site specifics
 - Actual construction cost must be managed to budget
- Achieve biomass budget
 - On time
 - High quality

THE PROCESS

- Bioplan
- Design
- Capex estimates
- Reciprocal relationship – pressure on bioplan and design
- Value engineering

SUMMARY

- Build a strong team to manage the process
- Realistic bioplan
- Systems must support bioplan requirements
- Capex control
- Meet biomass and quality goals on time and on budget
- Even the best RAS systems require qualified and experienced staff to succeed
